

CLP REC Fuel Mix – 2024 Prospective ⁽¹⁾		
Source	Proportion	Vintage ⁽³⁾
Solar Photovoltaic & Wind	90%-100%	1 Jul 2023 – 31 Mar 2025
Landfill Gas ⁽²⁾	0%-10%	
Total	100%	

Remarks:

- (1) Actual figures may vary according to resource availability. We will provide you a historical product label before 30 June 2025 setting out the actual mix of renewable electricity you purchased.
- (2) This product contains landfill gas, which is considered a renewable resource, but does have associated emissions.
- (3) It includes unused renewable generation (environmental attributes) from 2023 carried forward to 2024.
